Strong Foundations

Why is it that Duvik International is better equipped than any other HVAC spare parts provider to cater specifically for high volume jobs?

Industry Experience

Duvik began as a low-profile manufacturer of air conditioning spare parts from India. Today, it is the top option for all air-conditioning spare component needs. Since its founding, the company has placed a great emphasis on serving all MEP customers and duct installation companies worldwide. The business has expanded both vertically and horizontally since its beginning, building a solid and devoted customer base and distribution network with dedicated service and firm commitments.

Parts Availability

Duvik International offers the following parts:

- AC Ducting accessories:

No matter how big the job, we have the technology and expertise and capacity to deliver. With a comprehensive range of technologies, we can manage your entire requirement, ensuring quality consistency across the board.

Complete Control

Since 2017, Duvik has been operating independently. With all facilities on site, we can successfully maintain complete control of customer service, manufacturing, finishing, delivery and installation, both India wide and worldwide.

By maintaining this total control, we are confident that your requirement will be delivered as per your specifications. That is our guarantee to you.

Quality Control

How do Duvik International ensure that I am completely satisfied with the products and services I receive?

When doing business, quality and reliability are paramount. Duvik International are considered amongst our supplier peers to be THE industry standard for reliability in quality manufacturing . We achieve this with certain standards, examples of which follow:

Preferred Supplier Arrangements

Preferred supplier arrangements ensure our clients are receiving the highest quality materials and services the market has to offer.

Guaranteed Deliverability

We realize your order must be there on time, and our reputation is built upon that promise. We're so confident of our proven track record that we're one of the only HVAC parts providers to guarantee it will be ready on time!

Quality Guarantee

If when you receive your parts, you are not delighted, or they were not produced as required, simply call us. We'll immediately collect them and get them checked or re-delivered ensuring this pass quality checks by our talented team on site.

Customer Satisfaction Surveys

At Duvik we are constantly looking for feedback on ways to improve our processes. Customers are surveyed regularly to ensure they are completely satisfied with our product and service offerings.

Partnerships

Why do Duvik go to such great measures to build long term, mutually beneficial relationships with their clients?

At Duvik we thrive on developing long term, mutually beneficial relationships with our clients.

Targeted Relationships

We do not pretend to be “all things to all people”, or the “best at everything”. Our goal is to develop long term, mutually beneficial partnerships with companies that require our core product and service offerings.

Understanding Your Business

We realize that every business is different and therefore has unique needs when it comes to HVAC. Our team works closely with our clients to understand the dynamics of their business and develop the right quote to suit their needs.

Points of Difference

Our consultative approach to partnering with clients, our ability to do what others couldn't and can't; and our expertise in providing solutions to problems beyond the ability of other suppliers, are established points of difference and advantages that Duvik brings to all its clients. Such consistent performance makes us the supplier of choice for many of India's most successful companies.
